Hello

I have not received any cash proceeds from 2012 until now for my books * sent to Amazon, which amount to more than 3,000 books, and what is written on my payment account are all wrong data and it is the responsibility of book reviewers and the data published on the authors' pages And the

Amazon
account statement with the bank confirms that no cash is disbursed as shown
above, noting that My account with you is the largest scientific account on
the Amazon pages, in addition to that it is old from 2009, I have 152,000
books that have not been published and I want to publish them on the
Al-Amazen pages Please take as necessary and inform me With
