

# INVOICE

Adobe Acrobat

An update to Adobe® Acrobat® is available.

This update includes improvements in usability, online security and stability, as well as new features which help content developers deliver rich and engaging experiences.

Improvements in this version include...

- Critical Security Update
- Improved video performance and compatibility
- New APIs to improve your browsing experience on the latest devices

Note: If you have selected to allow Adobe to install updates, this update will be installed on your system automatically within 45 days or you can choose to download it now.
